Does anyone know where to find Mimikyū? Sorry if it doesn't belong here! West Gearen City (west), Route 1 (train), Route 2 (train) 1st Gym- Poison Gym Leader Venam City Description of East Geam City is the first area a player will arrive in after leaving S.S.Oceana. The southernmost area is Oceana Pier, a small, no-trainer-free area near the sea. To the north of the pier, past the gate, is the first half of the eastern city of Guerin. Directly above the gate is the Gearen Laboratory, where the player will receive the starting Pokemon. Located in different directions around the lab are three color-themed buildings, velvet, emerald and purple buildings. To the north is the Magnolia Library and The Gearen Relief Center, where players can complete short quests for people in exchange for rewards. The Northwest originally blocked the coach guarding both bridges access to the area, which could either have been battled or paid off. The area is home to a train station to Route 1, as well as access to the Junction Bridge, through which West Geam City lies. Initially, the staircase, an alternative access point to Gearen Sewers, was also blocked. The journey east leads into the second half of East Gearen City. At the center of this map is a number of vendors, one of which sells gourmet treats, an expensive necessity if you want to catch all the Pokemon events. Above them are two small stores - Berry Emporium and Pokeball Store, which will gradually sell more items as more icons are earned. To their right is the Petal Salon, which cannot be used until its subsequent request for help has been made. To the north of the market is the first gym, a poisonous type led by gym leader Venam. To the south of the market is Giren Park, a small grassy area with a different set of Met Pokemon for the rest of the city. Northwest lies Chrisola Hotel Resort, which contains a casino and AP STORE, where glasses are accumulated to complete achievements and can be sold for items that allow you to use HM without having to equip HM for your Pokemon. The Chrisola Hotel also has a roof that has a small grassy area and a more welcoming Pokemon. To the south of the Chrisola Hotel is the Venam House and, after a short contraction with it, opens an access point to the Gearen sewer in the southwest. Next to her house is a railway station leading to Highway 2. The Pokemon Nidoran F L5 event in the northeast corner of the first district, near the Emerald Building sits a Niedorian female. He will run away and have to be chased around the city before fighting. It can be found at route 1 train station, east near junction Bridge and finally in the north near the Magnolia Library. Nidoran M-Found in the middle of Oceana Pier. Talk to him with a gourmet treat in your bag to fight and catch him. Pachirisu L8- Found in a velvet building second floor at night. Talk to him with a gourmet treat in your bag to fight and catch him. Schuppet L5- Found in the Emerald Building on the third floor at night. Interact with him in combat Fletchling L5- A pile of Fletchling can be found hopping around a small garden area in Oceana Pier. You can fight them just by interacting with them. Voltorb-Talk to the most right-wing supplier in the East Geam Market, who will sell you a Pokeball for an expensive 400 each. Buy four of them though and it will give you Voltorb for free. Buizel-head into a lonely building on Oceana Pier and talk to the couple inside. The man would brag about dumping his Buizel because he was too weak. Leaving the building will lead to a short scene where Busel escapes. Buizel can be found east of the city by the Chrisola Hotel. The interaction this will lead to his initial coach returning, rethumating and demanding that you return him Buizel. Battle and defeat it and Buizel will join your team willingly. Charmer Buzzington Bulbasaur L8 Exeggute L8 Rhyhorn L10 Blitzle L18- Found on junction Bridge, just past some rock smash cliffs that you get after winning over 1st gym or alternatively, trading in AP Points for the Golden Hammer. Interact with him with a gourmet treat in the bag and he will fight you. Munna L20- Found by travelling on the Gaeren Sewer alternative access ladder on the west side of the city, which becomes available after clearing events on Route 1 and Goldenwood Forest. Arrive at night in a secret alley to find Munna floating around. Interact with one with a gourmet treat in your bag to fight it. Minccino- In Chrisola Hotel, enter a room in the right corridor after the events of Route 1 and Goldenwood Forest and talk to an old woman who is missing her Minccino. After chasing him around the hotel, Xen Grunts kidnaps Pokemon and they can be found and defeated in Giren Park. Returning to the old woman leads to the fact that she allows you to fight to catch her Minccino. Seviper (egg) - Access the secret area in the Venam gym using a brown, white and orange combination in the final puzzle. Seviper egg can be found there, which Venam allows you to take. Shinx L10- After arriving on Route 2, return to the Chrisola Hotel and talk to the girl in one of the rooms in the right hallway that will give you shinx with her. Litten-Found at the crossroads of the bridge, it is initially locked behind the gate, which requires a dumb key. This key can be found at the end of the L30 area of the game, by the Xen armadillo through the eastern door. Unlocking the gate and go to Litten with a gourmet to fight him. Lileco (L15) - Head to the Relief Center and take the Dangerous Pokemon quest, then head to Oceana Pier. As soon as you enter the pier, go to the right where the three Lileco stand. You will enter a scene where a lady in need of help accidentally drops an object that causes Pokemon to develop instantly, developing one of the three Lileco in Piroar. Then you enter into a double battle with Piroar, fighting two L15 Lileco and then L25 Piroar. After the victory, one of Lileco will join your and won't take no for an answer.
